

Environmental Policy

East African Portland Cement Company (EAPCC) is committed in improving environmental performance as an integral and fundamental part of its business strategy. EAPCC shall protect and conserve natural resources by promoting environmental sustainability and implementing innovative environmental technologies and practices.

Through management leadership and engagement of interested parties, EAPCC is committed to:

- Comply with all applicable laws, regulations, and other requirements to which the company subscribes to related to its environmental aspects;
- Prevent pollution by improving environmental performance;
- Enhance improvement of Environmental Management System by establishing and reviewing environmental objectives periodically;
- Promote the adoption of environmental management system by contractors and suppliers;
- Communicate the Environmental Policy throughout the organization and publicly avail it to all interested parties.

The policy shall be reviewed periodically for its suitability and relevance to the Company.
