No	CLASS OF INSURANCE	SUM INSURED	PREMIUM	UNDERWRITER

- Broker **must** provide their quotation for all classes of insurance policies.
- Broker **must** provide a benchmark analysis of two clients in the manufacturing industry with same or almost same insurance requirement profile as EAPCC indicating the premium rate offered for each class of policy and insurer.
- EAPCC shall take into consideration previous past claims and underwriting performance of underwriters in determining the substantial responsiveness at tender award. The factors to be considered shall include arbitrary rejection of disputed claims and failure to satisfactorily conclude claims and satisfy agreed performance benchmarks.
- The bidder should note that the submission of a quotation for any policy does not necessarily constitute a compulsory evaluation and/or award of any or all quoted policies. The Procuring entity reserves the right to either award or reject any quotation as proposed by the bidders, and where there is an award, the same will be based on the most responsive tender.
- Bidders may be requested to submit sample policy documents of awarded policies for the purpose of contract negotiations.
- The broker’s price schedule for each policy shall be supported by a copy of price quotations from the recommended underwriter. All Quotations **MUST** be accompanied by the underwriter’s quotations duly signed by the underwriter’s authorized official(s).
- Quotations that are not supported by underwriters’ quotations will not be considered for evaluation.
- The bidder should note that the award may be to several brokers
