- 2.17.3 No tender may be modified after the deadline for submission of tenders.
- 2.17.4 No tender may be withdrawn in the interval between the deadline for submission of tenders and the expiration of the period of tender validity specified by the tenderer on the Tender Form. Withdrawal of a tender during this interval may result in the Tenderer's forfeiture of its tender security, pursuant to paragraph 2.12.8.
- 2.17.5 The procuring entity may at any time terminate procurement proceedings before contract award and shall not be liable to any person for the termination.
- 2.17.6 The procuring entity shall give prompt notice of the termination to the tenderers and on request give its reasons for termination within 14 days of receiving the request from any tenderer.

2.18 Opening of Tenders

- 2.18.1 The Procuring entity will open all tenders in the presence of tenderers representatives who choose to attend, at **12.00 noon, 9th December, 2019** and in the location specified in the invitation to tender. The tenderers' representatives who are present shall sign a register evidencing their attendance.
- 2.18.3 The tenderers' names, tender modifications or withdrawals, tender prices, discounts, and the presence or absence of requisite tender security and such other details as the Procuring Entity, at its discretion, may consider appropriate, will be announced at the opening.
- 2.18.4 The procuring entity will prepare minutes of the tender opening which will be submitted to the tenderers that signed the tender opening register and will have made the request.

2.19 Clarification of tenders

- 2.19.1 To assist in the examination, evaluation and comparison of tenders the procuring entity may at its discretion, ask the tenderer for a clarification of its tender. The request for clarification and the response shall be in writing, and no change in the prices or substance shall be sought, offered, or permitted.
- 2.19.2 Any effort by the tenderer to influence the procuring entity in the procuring entity's tender evaluation, tender comparison or contract award decisions may result in the rejection of the tenderer's tender.

2.20 Preliminary Examination and Responsiveness

- 2.20.1 The Procuring entity will examine the tenders to determine whether they are complete, whether any computational errors have been made, whether required securities have been furnished whether the documents have been properly signed, and whether the tenders are generally in order.
- 2.20.2 Arithmetical errors will be rectified on the following basis. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail, and the total price shall be corrected. If the candidate does not accept the correction of the errors, its tender will be rejected, and its tender security may be forfeited. If there is a discrepancy between words and figures, the amount in words will prevail.
- 2.20.3 The Procuring entity may waive any minor informality or nonconformity or irregularity in a tender which does not constitute a material deviation, provided such waiver does not prejudice or affect the relative ranking of any tenderer.
- 2.20.4 Prior to the detailed evaluation, pursuant to paragraph 22, the Procuring entity will determine the substantial responsiveness of each tender to the tender documents. For purposes of these paragraphs, a substantially responsive tender is one which conforms to all the terms and conditions of the tender documents without material deviations. The Procuring entity's determination of a tender's responsiveness is to be based on the contents of the tender itself without recourse to extrinsic evidence.
- 2.20.5 If a tender is not substantially responsive, it will be rejected by the Procuring entity and may not subsequently be made responsive by the tenderer by correction of the nonconformity.

2.21 Conversion to a single currency

- 2.21.1 Where other currencies are used, the procuring entity will convert those currencies to Kenya shillings using the selling exchange rate on the date of tender closing provided by the central bank of Kenya.

2.22 Evaluation and comparison of tenders.

- 2.22.1 The procuring entity will evaluate and compare the tenders which have been determined to be substantially responsive, pursuant to paragraph 2.20
- 2.22.2 The comparison shall be of the price including all costs as well as duties and taxes payable on all the materials to be used in the provision of the services.
- 2.22.3 The Procuring entity's evaluation of a tender will take into account, in addition to the tender price, the following factors, in the manner and to the extent indicated in paragraph 2.22.4 and in the technical specifications:
- (a) operational plan proposed in the tender;
 - (b) deviations in payment schedule from that specified in the Special Conditions of Contract;

2.22.4 Pursuant to paragraph 22.3 the following evaluation methods will be applied:

(a) ***Operational Plan.***

The Procuring entity requires that the services under the Invitation for Tenders shall be performed at the time specified in the Schedule of Requirements. Tenders offering to perform longer than the procuring entity's required delivery time will be treated as non-responsive and rejected.

(b) ***Deviation in payment schedule.***

Tenderers shall state their tender price for the payment on a schedule outlined in the special conditions of contract. Tenders will be evaluated on the basis of this base price. Tenderers are, however, permitted to state an alternative payment schedule and indicate the reduction in tender price they wish to offer for such alternative payment schedule. The Procuring entity may consider the alternative payment schedule offered by the selected tenderer.

2.22.5 The tender evaluation committee shall evaluate the tender within 30 days from the date of opening the tender.

2.22.6 To qualify for contract awards, the tenderer shall have the following:-

- (a) Necessary qualifications, capability experience, services, equipment and facilities to provide what is being procured.
- (b) Legal capacity to enter into a contract for procurement
- (c) Shall not be insolvent, in receivership, bankrupt or in the process of being wound up and is not the subject of legal proceedings relating to the foregoing
- (d) Shall not be debarred from participating in public procurement.

2.23. Contacting the procuring entity

2.23.1 Subject to paragraph 2.19, no tenderer shall contact the procuring entity on any matter relating to its tender, from the time of the tender opening to the time the contract is awarded.

2.23.2 Any effort by a tenderer to influence the procuring entity in its decisions on tender evaluation, tender comparison or contract award may result in the rejection of the tenderers tender.

2.24 Award of Contract

a) **Post qualification**

2.24.1 In the absence of pre-qualification, the Procuring entity will determine to its satisfaction whether the tenderer that is selected as having submitted the lowest evaluated responsive tender is qualified to perform the contract satisfactorily.

2.24.2 The determination will take into account the tenderer's financial and technical capabilities. It will be based upon an examination of the documentary evidence of the tenderers qualifications submitted by the tenderer, pursuant to paragraph 2.1.2, as well as such other information as the Procuring entity deems necessary and appropriate.

2.24.3 An affirmative determination will be a prerequisite for award of the contract to the tenderer. A negative determination will result in rejection of the Tenderer's tender, in which event the Procuring entity will proceed to the next lowest evaluated tender to make a similar determination of that Tenderer's capabilities to perform satisfactorily.

b) Award Criteria

2.24.4 Subject to paragraph 2.22 the Procuring entity will award the contract to the successful tenderer whose tender has been determined to be substantially responsive and has been determined to be the lowest evaluated tender, provided further that the tenderer is determined to be qualified to perform the contract satisfactorily.

2.24.5 The procuring entity reserves the right to accept or reject any tender and to annul the tendering process and reject all tenders at any time prior to contract award, without thereby incurring any liability to the affected tenderer or tenderers or any obligation to inform the affected tenderer or tenderers of the grounds for the procuring entity's action. If the procuring entity determines that none of the tenderers is responsive; the procuring entity shall notify each tenderer who submitted a tender.

2.24.6 A tenderer who gives false information in the tender document about its qualification or who refuses to enter into a contract after notification of contract award shall be considered for debarment from participating in future public procurement.

2.25 Notification of award

2.25.1 Prior to the expiration of the period of tender validity, the Procuring entity will notify the successful tenderer in writing that its tender has been accepted.

2.25.2 The notification of award will signify the formation of the Contract subject to the signing of the contract between the tenderer and the procuring entity pursuant to clause 2.26. Simultaneously the other tenderers shall be notified that their tenders have not been successful.

2.25.3 Upon the successful Tenderer's furnishing of the performance security pursuant to paragraph 27, the Procuring entity will promptly notify each unsuccessful Tenderer and will discharge its tender security, pursuant to paragraph 2.12

2.26 Signing of Contract

2.26.1 At the same time as the Procuring entity notifies the successful tenderer that its tender has been accepted, the Procuring entity will simultaneously inform the other tenderers that their tenders have not been successful.

2.26.2 Within fourteen (14) days of receipt of the Contract Form, the successful tenderer shall sign and date the contract and return it to the Procuring entity.

2.26.3 The parties to the contract shall have it signed within 30 days from the date of notification of contract award unless there is an administrative review request.

2.27 Performance Security

2.27.1 Within thirty (30) days of the receipt of notification of award from the Procuring entity, the successful tenderer shall furnish the performance security in accordance with the Conditions of Contract, in the Performance Security Form provided in the tender documents, or in another form acceptable to the Procuring entity.

2.27.2 Failure of the successful tenderer to comply with the requirement of paragraph 2.26 or paragraph 2.27.1 shall constitute sufficient grounds for the annulment of the award and forfeiture of the tender security, in which event the Procuring entity may make the award to the next lowest evaluated or call for new tenders.

2.28 Corrupt or Fraudulent Practices

2.28.1 The Procuring entity requires that tenderers observe the highest standard of ethics during the procurement process and execution of contracts. A tenderer shall sign a declaration that he has not and will not be involved in corrupt or fraudulent practices.

2.28.2 The procuring entity will reject a proposal for award if it determines that the tenderer recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question;

2.28.3 Further, a tenderer who is found to have indulged in corrupt or fraudulent practices risks being debarred from participating in Public Procurement in Kenya.

SECTION III -GENERAL CONDITIONS OF CONTRACT

3.1 Definitions

In this contract the following terms shall be interpreted as indicated:

- a) “The contract” means the agreement entered into between the Procuring entity and the tenderer as recorded in the Contract Form signed by the parties, including all attachments and appendices thereto and all documents incorporated by reference therein.
- b) “The Contract Price” means the price payable to the tenderer under the Contract for the full and proper performance of its contractual obligations.
- c) “The services” means services to be provided by the contractor including materials and incidentals which the tenderer is required to provide to the Procuring entity under the Contract.
- d) “The Procuring entity” means the organization sourcing for the services under this Contract.
- e) “The contractor means the individual or firm providing the services under this Contract.
- f) “GCC” means general conditions of contract contained in this section
- g) “SCC” means the special conditions of contract
- h) “Day” means calendar day

3.2 Application

- 3.2.1 These General Conditions shall apply to the extent that they are not superseded by provisions of other part of contract.

3.3 Standards

- 3.3.1 The services provided under this Contract shall conform to the 7 standards mentioned in the Schedule of requirements

3.4 Patent Right’s

- 3.4.1 The tenderer shall indemnify the Procuring entity against all third-party claims of infringement of patent, trademark, or industrial design rights arising from use of the services under the contract or any part thereof.

3.5 Performance Security

- 3.5.1 Within thirty (30) days of receipt of the notification of Contract award, the successful tenderer shall furnish to the Procuring entity the performance security where applicable in the amount specified in Special Conditions of Contract.
- 3.5.2 The proceeds of the performance security shall be payable to the Procuring entity as compensation for any loss resulting from the Tenderer's failure to complete its obligations under the Contract.
- 3.5.3 The performance security shall be denominated in the currency of the Contract, or in a freely convertible currency acceptable to the Procuring entity and shall be in the form of:
 - a) A bank guarantee.
- 3.5.4 The performance security will be discharged by the procuring entity and returned to the candidate not later than thirty (30) days following the date of completion of the tenderer's performance of obligations under the contract, including any warranty obligations under the contract.

3.6 Inspections and Tests

- 3.6.1 The Procuring entity or its representative shall have the right to inspect and/or to test the services to confirm their conformity to the Contract specifications. The Procuring entity shall notify the tenderer in writing, in a timely manner, of the identity of any representatives retained for these purposes.
- 3.6.2 The inspections and tests may be conducted on the premises of the tenderer or its subcontractor(s). If conducted on the premises of the tenderer or its subcontractor(s), all reasonable facilities and assistance, including access to drawings and production data, shall be furnished to the inspectors at no charge to the Procuring entity.
- 3.6.3 Should any inspected or tested services fail to conform to the Specifications, the Procuring entity may reject the services, and the tenderer shall either replace the rejected services or make alterations necessary to meet specification requirements free of cost to the Procuring entity.
- 3.6.4 Nothing in paragraph 3.7 shall in any way release the tenderer from any warranty or other obligations under this Contract.

3.7 Payment

- 3.7.1 The method and conditions of payment to be made to the tenderer under this Contract shall be specified in SCC

3.8 Prices

3.8.1 Prices charged by the contractor for services performed under the Contract shall not, with the exception of any Price adjustments authorized in SCC, vary from the prices by the tenderer in its tender or in the procuring entity's request for tender validity extension as the case may be. No variation in or modification to the terms of the contract shall be made except by written amendment signed by the parties.

3.9 Assignment

3.9.1 The tenderer shall not assign, in whole or in part, its obligations to perform under this contract, except with the procuring entity's prior written consent.

3.10 Termination for Default

3.10.1 The Procuring entity may, without prejudice to any other remedy for breach of Contract, by written notice of default sent to the tenderer, terminate this Contract in whole or in part:

- a) if the tenderer fails to provide any or all of the services within the period(s) specified in the Contract, or within any extension thereof granted by the Procuring entity.
- b) if the tenderer fails to perform any other obligation(s) under the Contract.
- c) if the tenderer, in the judgment of the Procuring entity has engaged in corrupt or fraudulent practices in competing for or in executing the Contract.

3.10.2 In the event the Procuring entity terminates the Contract in whole or in part, it may procure, upon such terms and in such manner as it deems appropriate, services similar to those undelivered, and the tenderer shall be liable to the Procuring entity for any excess costs for such similar services.

3.11 Termination of insolvency

3.11.1 The procuring entity may at the anytime terminate the contract by giving written notice to the contractor if the contractor becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the contractor, provided that such termination will not produce or affect any right of action or remedy, which has accrued or will accrue thereafter to the procuring entity.

3.12 Termination for convenience

3.13.1 The procuring entity by written notice sent to the contractor may terminate the contract in whole or in part, at any time for its convenience. The notice of termination shall specify that the termination is for the procuring entity convenience, the extent to which performance of the contractor of the contract is terminated and the date on which such termination becomes effective.

3.13.2 For the remaining part of the contract after termination the procuring entity may elect to cancel the services and pay to the contractor on agreed amount for partially completed services.

3.13 Resolution of disputes

- 3.13.1 The procuring entity's and the contractor shall make every effort to resolve amicably by direct informal negotiations any disagreement or dispute arising between them under or in connection with the contract.
- 3.13.2 If after thirty (30) days from the commencement of such informal negotiations both parties have been unable to resolve amicably a contract dispute either party may require that the dispute be referred for resolution to the formal mechanisms specified in the SCC.

3.14 Governing Language

- 3.14.1 The contract shall be written in the English language. All correspondence and other documents pertaining to the contract, which are exchanged by the parties, shall be written in the same language.

3.15 Force Majeure

- 3.15.1 The contractor shall not be liable *for* forfeiture of its performance security, or termination for default if and to the extent that its delay in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure.

3.16 Applicable Law.

- 3.16.1 The contract shall be interpreted in accordance with the laws of Kenya unless otherwise specified in the SCC

3.17 Notices

- 3.17.1 Any notices given by one party to the other pursuant to this contract shall be sent to the other party by post or by fax or E-mail and confirmed in writing to the other party's address specified in the SCC
- 3.17.2 A notice shall be effective when delivered or on the notices effective date, whichever is later.

SECTION IV SPECIAL CONDITIONS OF CONTRACT

- 4.1 Special conditions of contract shall supplement the general conditions of contract, wherever there is a conflict between the GCC and the SCC, the provisions of the SCC herein shall prevail over those in the GCC.
- 4.2 Special conditions of contract with reference to the general conditions of contract.

3.5	Specify performance security if applicable: A successful tenderer shall submit a performance security equivalent to not more than 10% of the contract amount before signing of the contract.
3.7	Specify method Payments. Payment shall be made within 30 days of submission of invoice.
3.8	Specify price adjustments allowed. None
3.14	Specify resolution of disputes. Disputes to be settled as per the Arbitration Laws of Kenya
3.16	Specify applicable law. Laws of Kenya

SECTION V SCHEDULE OF REQUIREMENTS

Area at Kibini Quarry occurs in two formations designated as Area 5-Pit No. 1 and Area 5-Pit No. 2.

Kibini Area 5 limestone deposit area has an average elevation of 1294m asl, with the highest contour being 1307m asl. The East African Portland Cement Plc invite reputable firms to bid for the Outsourcing of limestone mining operations at Kibini quarry. Tenderers must submit with their tender the detailed specifications of their proposed equipment. The Employer reserves the right to reject the Outsourcing services if deviations critical to the implementation arise.

The successful vendor will be required to move to site immediately after contract signing or **at an agreed start date.**

Kibini Quarry is 100 kms from Athi River factory and 19kms off Sultan Hamud town. It is accessed via the Sultan Hamud - Mashuru road.

SECTION VI SCOPE OF WORK

1.0 Description of the limestone rock

Crystalline Limestone usually occurs in a continuous body. In Kibini hill, the limestone deposit has been designated as Limestone-Area 5. The limestone in the current mining

At the current mining pit, the lowest contour is 1247m asl.

Active mining is currently being undertaken at Area 5-Pit No. 1, which was opened in 1997. The main quarry is about 1km long and 0.3km wide.

The quarry has been developed in benches of varying heights, the minimum being 10 meters.

The quarry comprises an entry access to the bottom bench (60m) of approximately 30° slope, over a distance of about 800m up to the bottom.

The bottom bench is narrow and as currently developed, may not have room for further expansion. However, through waste development and removal at the top benches, it is possible to open up the quarry and make mining at the bottom bench viable. However, mining is continuing in all the benches located in the South Eastern end.

2.0 Mining

Mining involves removal of the overburden by a bulldozer to access the Limestone before drilling, blasting and haulage. In-situ waste intercalations are separated from the limestone during mining to avoid contamination and lowering of quality.

The quarry has been developed in benches and currently mining is being undertaken in the Area-5 Quarry. This quarry is currently about 70m deep.

As developed currently, mining the limestone requires development of the upper limestone benches through removal of overburden to expose the limestone.

1. **Overburden removal - Red Soils:** Removal of the top red soils will require a bulldozer to rip, doze and load or an excavator to strip and load. The stripped soil is loaded onto dumpers for dumping at a

designated dumping area which is approximately 1km from the main quarry. The thickness of the red soils is typically between 5-6m.

2. **Overburden removal - Volcanic Ash:** The underlying volcanic ash bed may be removed by ripping, dozing and loading for dumping at the designated dumping site, which is approximately 1km from the main quarry. The volcanic ash may also be loosened through blasting then loaded onto dump trucks for dumping at the designated dumping area.

3. **Blasting:** Exposed limestone is then blasted into manageable boulder sizes which will allow crushing through the installed Kibini Hill Quarry static impact crusher (250 TPH throughput capacity), but not larger than 0.5m median size. Blasting will be done by the contractor at intervals which will allow adequate production and haulage of adequate limestone for crushing.

The following primary drilling pattern is suggested as a guideline for bench height of 10 meters with ANFO being used as the standard explosives column charge:

Item	Limestone	Soft waste rock
Bench Height (m)	10	10
Drill hole diameter (mm)	165	165
Burden (m)	3	4
Spacing (m)	4	5
Sub-grade drilling (m)	1	1

4. Size reduction will be undertaken by EAPC PLC team operating the static crusher to bring the final product to factory specifications.

5. **The contractor is required to haul a minimum of 1,900 tons of raw limestone from the quarry pit to the crusher apron daily for processing.** The contractor will use designated quarry equipment (dumpers, excavators, front end loaders, drilling rigs) and staff (operators, blaster) to ensure fulfillment of the contract.

6. The contractor will be expected to undertake waste development at intervals sufficient to allow proper quarry advance. This will be agreed upon with the designated EAPC PLC Quarry representatives

3.0 Hanging wall

The current mining direction is South East, where the top bench has exposed a hanging wall of limestone occurring between schistose rock and overlain by volcanic ash. The actual limestone body is 35m in width and approximately 20m in height.

The limestone.. at 45° SE and is lying below 6 meters of volcanic ash at the current quarry edge. An exploration drill hole sunk about 30 meters from the quarry edge has confirmed a limestone depth of 16 meters.

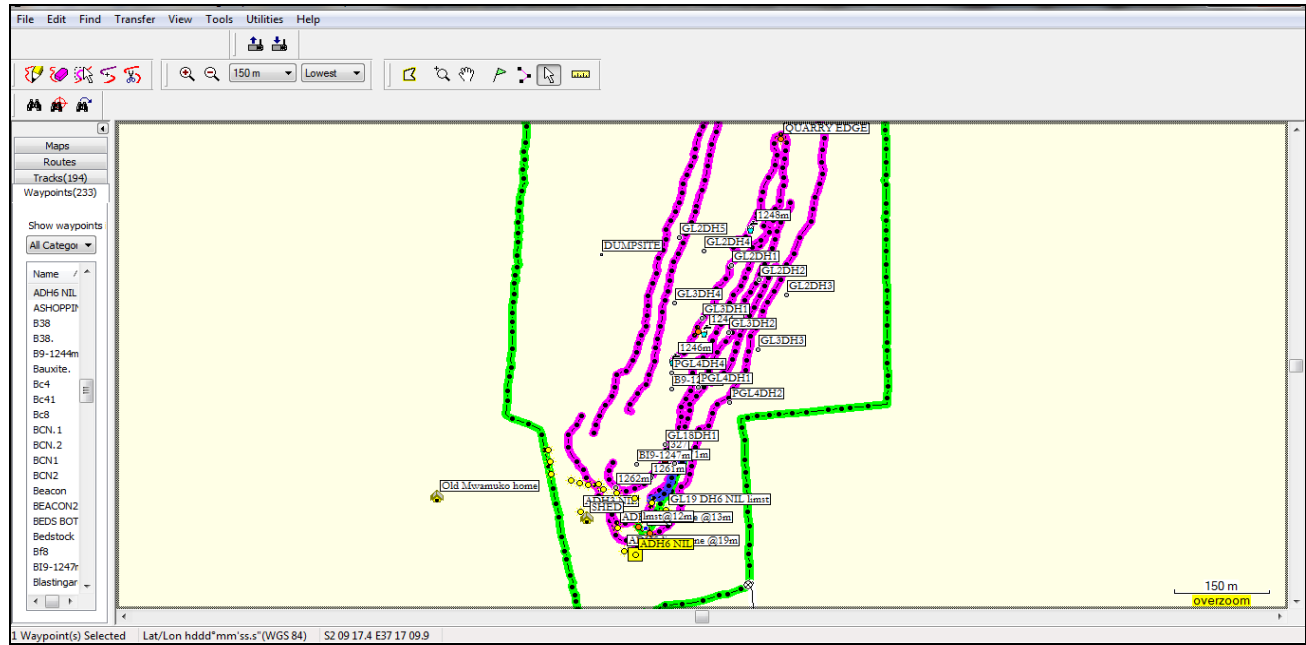

Developing the quarry SE from the top will expose a further 30m of limestone face of the same width in 3 benches and possibly allow opening of another bench at the bottom.

4.0 Stripping Ratio

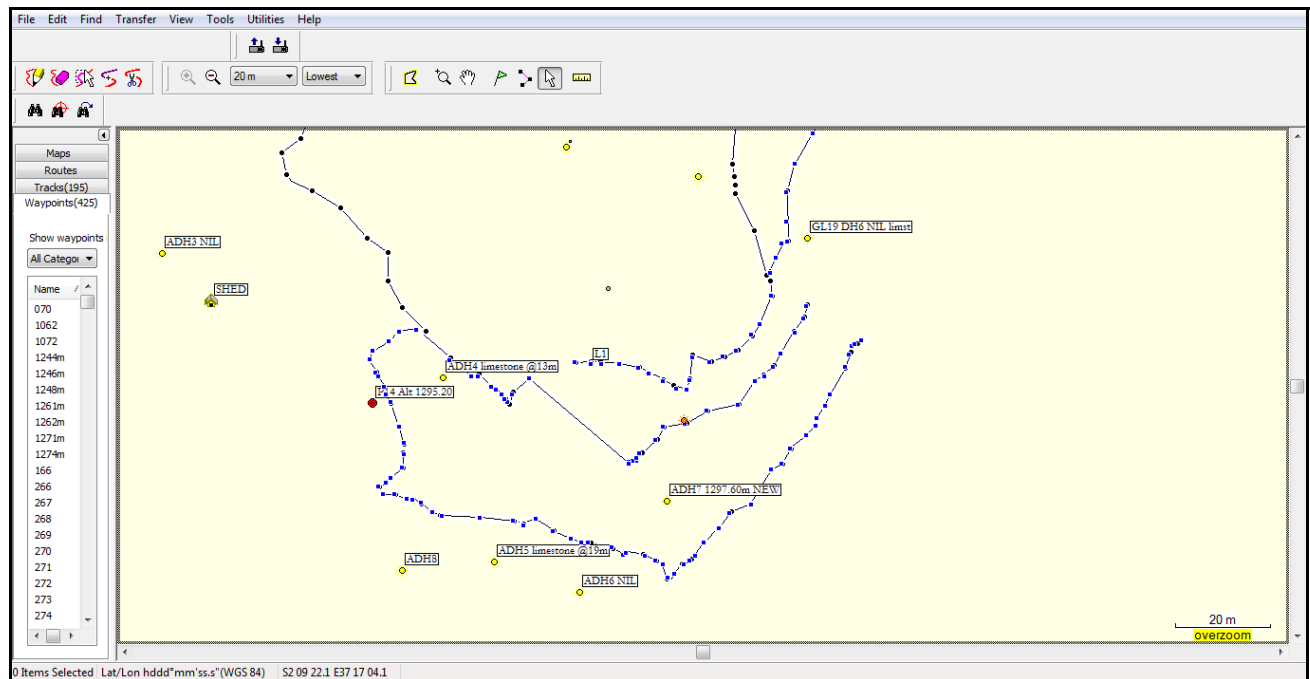

The waste: limestone stripping ratio is 1:3

5.0 Map representation of Quarry

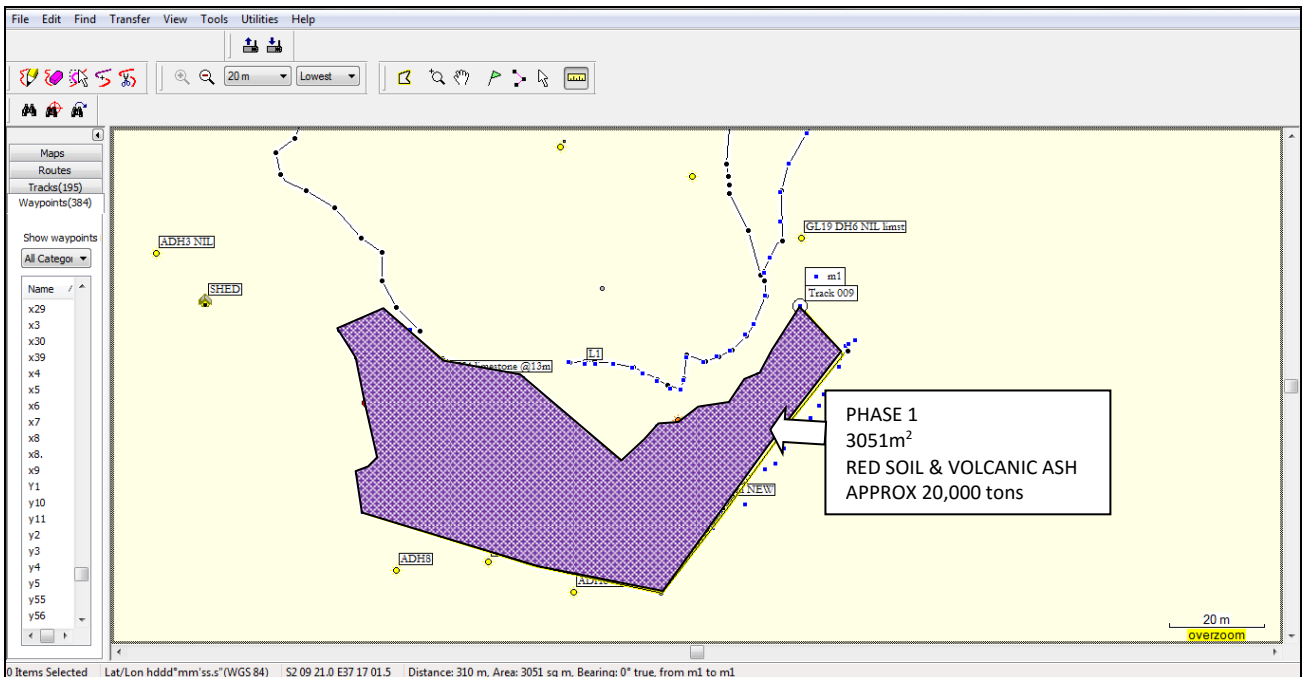

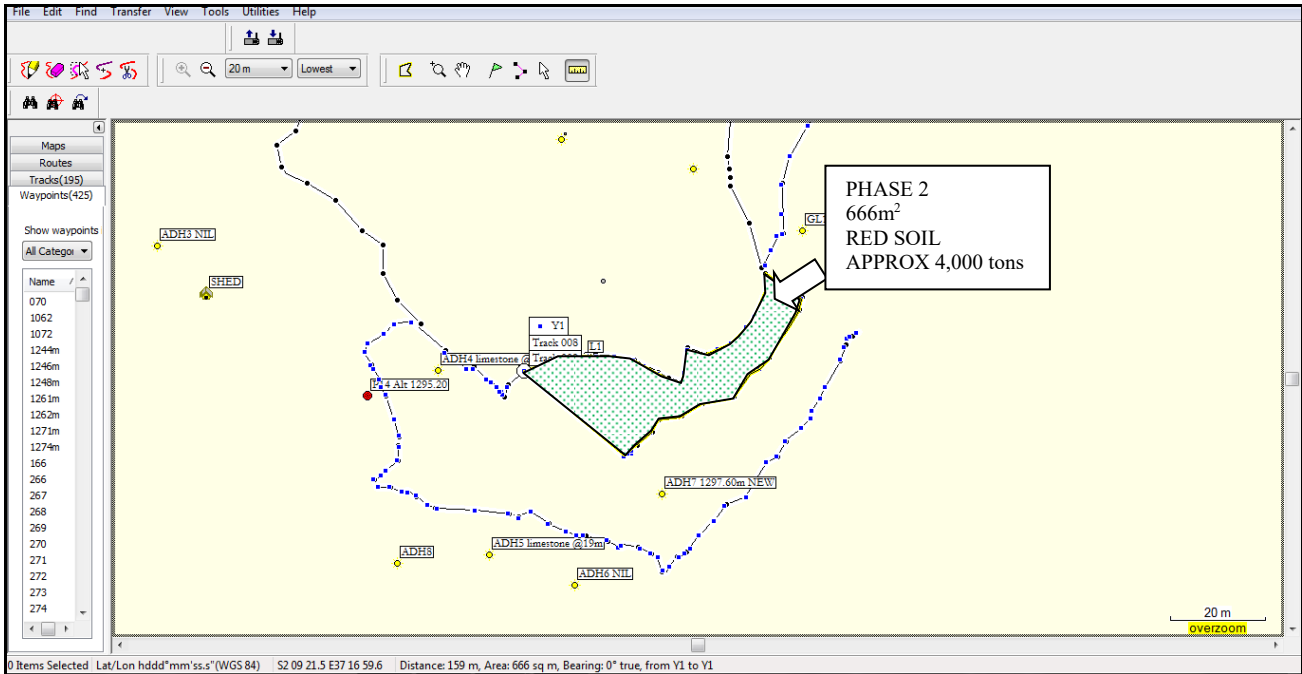

Quarry and benches

Mining Area - SE

5.1 Limestone and Waste Volumes

As shown above, in the short term, the contractor will be required to excavate approximately 24,000 tons of waste material (phase-1 soft schistose rock, 3m, phase-2 red soil and volcanic ash 6m). Additional waste removal will be required in the medium term at the aforementioned stripping ratio.

From this, the contractor will be able to expose and mine approximately 100,000 tons of limestone in the subsequent lower benches. This tonnage will increase on further development in the course of contract.

The aforementioned hanging wall will be benched during development as per the mining plan so as to improve access and safety during mining.

6.0 Mining Equipment

To optimally the mining operation, it is recommended to the prospective bidders to have the following equipment sizes:

Equipment	Number		Size
Hydraulic Crawler Excavator	2	Quarry Development - 1 Mining - 1	4 - 5 ton bucket size
Dump Trucks	5	Quarry Development - 2 Haulage - 3	35- ton Capacity
Crawler mounted DTH 4 - 6 ¹ / ₂ " Drilling Rig for blasting and Compressor equivalent to ROC460 or CM351	1	Quarry Development and Mining - 1	13 bar
Hydraulic Crawler Excavator with a rock breaker	1	Breaking oversize boulders - 1	2.5 m ³
Bulldozer	1	Ripping, dozing and dressing waste - 1	As per requirement

The above equipment required for mining purposes MUST be either NEW or at the minimum NOT MORE than three (3) years old from the date of manufacture. For the old plants, maintenance records shall be required to gauge capacity to meet our requirements.

7.0 Methodology Statement

The prospective bidder is expected to give a methodology statement on his approach to undertake the mining and haulage to crusher-operations.

8.0 Pre-tender visit

A pre-tender visit shall be mandatory for all prospective bidders to enable them fully appreciate the mining process. It is very important for bidders to note the following:-

a) The Bidder MUST visit and examine the site and its surroundings and obtain for himself on his own responsibility, all information that may be necessary for preparing the Bid and entering into contract. The costs of visiting the site shall be the Bidder's own responsibility.

A site visit confirmation form shall form part of this bid document.

b) The Bidder and any of his personnel or agents shall be granted permission by the employer to enter upon premises and lands for the purpose of such inspection, but only upon the express condition that the Bidder, his personnel or agents, shall release and indemnify the Employer from and against all liability in respect of, and shall be responsible for personal injury (where fatal or otherwise), loss of or damage to property and any other loss, damage, costs and expenses however caused, which but for the exercise of such permission, would not have arisen.

Bidders must provide their own transport. The representative shall not be available at any other time for the site inspection visits.

Payments for limestone mined shall be based on receipts at the static crusher apron through the Company's mobile weighbridge.

The Estimated hauled Limestone production from the quarry target 48,000 tons respectively per month.

Waste volumes to be removed are in keeping with the limestone:waste ratio of 1:3.

The successful tenderer is expected to meet at the minimum 90% of this target.

The successful tenderer shall provide the required equipment, fuel, and operators and provide all the maintenance needs to effectively support the production at his own cost including watching.

The successful tenderer shall be expected to be ready for production with his equipment delivered to Kibini quarry site not more than twenty one (21) days from the date of signing of the Contract. The tenderer shall be expected to state how soon his equipment shall be available.

The successful tenderer shall be expected to fully comply with EAPCC's Safety, Health & Environment requirements and MUST fulfill all NEMA requirements. The tenderer is encouraged to seek this information from SHE section and familiarize himself with it during tendering process.

The successful tenderer shall provide the services on the days and at the times specified below:

Mining working hours

Monday to Saturdays: 6.00 am - 5.30 pm

Sundays and Public Holidays: As notified by the Company in writing from time to time.

NB: Bidders can be able to hire but they must show proof/ agreement of the hire

- 3) For the old equipment, maintenance records shall be required to gauge capacity to meet our requirements.
- 4) The prospective bidder is thus expected to give a methodology statement on his approach to undertake the mining operations.
- 5) A pre-tender visit **shall be mandatory** for all prospective bidders to enable them fully appreciate the mining process. It is very important for bidders to note the following:-
 - a) The Bidder MUST visit and examine the site and its surroundings and obtain for himself on his own responsibility, all information that may be necessary for preparing the Bid and entering into contract. The costs of visiting the site shall be the Bidder's own responsibility. A site visit confirmation form shall form part of this bid document.
 - b) The Bidder and any of his personnel or agents shall be granted permission by the employer to enter upon premises and lands for the purpose of such inspection, but only upon the express condition that the Bidder, his personnel or agents, shall release and indemnify the Employer from and against all liability in respect of, and shall be responsible for personal injury (where fatal or

otherwise), loss of or damage to property and any other loss, damage, costs and expenses however caused, which but for the exercise of such permission, would not have arisen.

- c) The Employer shall organize a site visit on **Wednesday 27.11.19**, Interested **bidders to assemble at plant in Athi River by 10:00am**. They shall contact the Company geologist (Mr. Peter Kimuyu) who shall accompany them to the site. **Bidders must provide their own transport.**

The representative shall not be available at any other time for the site inspection visits.

- 6) The Estimated screened Limestone production target 48,000 tons respectively per month. The successful tenderer is expected to meet at the minimum 90% of this target
- 7) The successful tenderer shall provide the required equipment, fuel, and operators and provide all the maintenance needs to effectively support the production at his own cost including watching.
- 8) The successful tenderer shall be expected to be ready for production with his equipment delivered to Kibini quarry site not more than twenty one (21) days from the date of signing of the Contract. The tenderer shall be expected to state how soon his equipment shall be available.
- 9) The tenderer is expected to put as part of the tender a methodology statement that best describes his understanding of the process and how he intends to manage his teams on site.
- 10) The successful tenderer shall be expected to fully comply with EAPC PLC 's Safety, Health & Environment requirements and MUST fulfill all NEMA requirements. The tenderer is encouraged to seek this information from SHE section and familiarize himself with it during tendering process.
- 12) The successful bidder shall be required to show proof of qualified personnel who must include a licensed blaster as required by Explosives Act

LIMESTONE SPECIFICATIONS

Limestone from the quarry is expected to be of a maximum of 500mm size for easy crushing at the EAPC PLC Kibini crusher.

Evaluation and Comparison of Bids

A. Mandatory Requirements:

The following requirements are mandatory and any bidder not meeting any of them shall be treated as non-responsive

<u>MR</u>	<u>Description</u>	<u>Bidders Response</u>
<u>MR1</u>	Copy of certificate of Registration/Incorporation	
<u>MR2</u>	Copy of Valid Tax Compliance certificate	
<u>MR3</u>	Must Fill the Price Schedule in the format provided	
<u>MR4</u>	Must Fill the Form of Tender in the format provided	
<u>MR5</u>	Must Submit a Tender Security of Kshs. 1,00,000 (One Million only)	
<u>MR6</u>	Must submit a duly filled up Confidential Business Questionnaire in format provided	
<u>MR7</u>	Provide evidence of site visit - attach site visit form (as signed by EAPCC representative- Refer to page 35 for the form)	

B. Technical Evaluation

Basis	Criteria	Score
Capacity	Methodology statement of performance to demonstrate understanding of the task and staff requirement to deliver 48,000 tons per month of raw limestone from the quarry pit to the crusher apron	20
	Logistical arrangements - availability of plants/equipment (as listed on page 28) Due diligence will be carried out to confirm availability of the equipments and capacity)	25
	Provide a list and reference letters of all clients, (minimum	15

	three (3) . This requirement does not exempt any bidder even those whose reference may be EAPCC.	
Financial capability) Annual Turnover (as supported by latest 2 years audited accounts)	5
	Working Capital – Provide details of the tenderer’s bankers and letter of comfort from the bank to confirm suppliers’ ability to offer services. NB. Submit audited accounts for the last 2 financial years and names of the tenderers’ bankers, auditors and insurance service providers	5
